# Who Takes What

---

- Monthly training schedule is posted on JSC internal homepage.
- Registration into classes is the responsibility of the employee's training coordinator
- Hearing Conservation Program training participation is tracked by Occupational Health and JSC Occupational Medicine Clinic.

# How Training is Tracked

---

- Occupational Health maintains a database of health-related training participation.
- Occupational Safety maintains a database of safety-related training participation.
- Civil servant employee training is tracked by JSC HR.
- Monthly reports are distributed to training coordinators.
- S&H Training is currently being considered as a center metric that is measured to determine S&H program effectiveness at a Center Level
